

Meeting Subject Matter Competency Through Coursework Form
for Multiple Subject Credential Teachers

Directions:

- Complete the boxes that are shaded in white, blue, green, and yellow only. A description of each domain can be found [here](#) on pages 37-50. If you already have passing scores for a CSET subtest, you do **not** need to fill out the rows for that subtest. Please note: if you do not meet one of the domains within a subtest, you will need to take that entire subtest, regardless of whether or not you have coursework that covers the rest of the domains within that subtest. For example, if you do not have coursework that covers Music, you will need to take and pass Subtest III; therefore, you do not need to complete the remaining rows for that subtest.
- Courses must have been completed with a grade of C- or better.
- Courses must be degree-applicable. Degree-applicable courses taken at the community college level may be used.
- **Please attach or link a course description or syllabus for each course listed.**
- When the review is completed, a staff member will contact you via email to inform you if your coursework meets the requirement.
