

REACH UNIVERSITY GRADUATE INSTITUTE for SCHOOL LEADERSHIP

Vision of Reach University

Imagine a world where effort and merit, not money or connections, determine who gets ahead. We seek to bring about a more equitable reality where each student has the support of highly effective and dedicated teachers, and where each teacher has the support of highly effective and dedicated school leaders, and where everyone has access to deeper learning and meaningful opportunities in their chosen local community.

2024 – 2025 Instructional Leadership Academy Overview

Become a transformative equity-centered leader the community needs

Whether you wish to become a school leader, a teacher leader, a student services leader, or an organizational/system leader, the Instructional Leadership Academy (ILA) at Reach University has a job-embedded pathway for you.

Our Approach

The Reach Instructional Leadership Academy (ILA) focuses on job-embedded coursework, supported by professional coaching and a cohort learning model. With these tools, the ILA program prepares aspiring and current educational leaders to lead schools, create equitable systems, and identify and disrupt patterns of inequity and racism.

Program Goals

Candidates who complete the Reach Instructional Leadership Academy will be skilled instructional coaches, supervisors, and facilitators of professional learning. Alumni will be equity-oriented, and adaptive leaders who are committed to making transformative systemic and institutional change within their organizations and communities. Reach leaders engage students, teachers, staff and educational partners to become focused, critical, and joyful lifelong learners.

"My coaching skills have improved because it was helpful to be in the course and working with colleagues from different parts of the area for expertise. The professors were very knowledgeable and always available."

— ILA participant, 2022

"The content of my action research will make an impact at my current school site because it's a real need at my site. My research has planted the seeds for something more to grow with teacher collaboration."

— ILA M.Ed participant, 2022

"Reach is fundamental to my growth as a leader and because of it I am able to impact the change I wish to see in my school."

— ILA participant, 2018
